Wildlife in Common:
Amphibian Survey Form

Please attach a map showing your survey route

Name of Surveyor/s:	Name of common:
	Grid reference:
Email address:	Date of visit:

Daylight survey transect

How to use this form:

Please use a separate survey form each time you survey your common and include a map to show us where your route (transect) was, clearly indicating where pond/wet areas are.

- Simply indicate which species you have found in which section of the habitat and the number seen.
- Add in the "Notes" column a short description of where seen (e.g. under a fallen log in grassland) and anything else you feel is handy to know.

Species	Area on map eg. wood, grassland or pond (P1, P2)	Number seen	Notes

Wildlife in Common:
Amphibian Survey Form

NORFOLK WILDLIFE TRUST

Pond dipping survey

How to use this form:

- Indicate which species you have found in the pond number seen in and provide a grid reference if possible relating to the pond surveyed.
- It would also be helpful to estimate the rough size of the pond in square meters

PLEASE REMEMBER to remove all plant material from equipment and boots to avoid spreading of invasive species.

Species	Pond Ref. Number (P1, P2 etc)	Grid reference if known	No. individuals	Notes

If you do happen to come across a great crested newt:

- Please stop surveying.
- Do not attempt to handle them.
- Make a record on your survey form.
- Report to Norfolk Biodiversity Information Service (NBIS) and Norfolk Wildlife Trust (NWT) via email at nbis@norfolk.gov.uk and wild@norfolkwildlifetrust.org.uk.
