

**County Wildlife Site Survey Form**  
(Ref. No.2268)

**Site Name:** Drayton Drewray  
**Grid reference:** TG175163  
**District:** Broadland

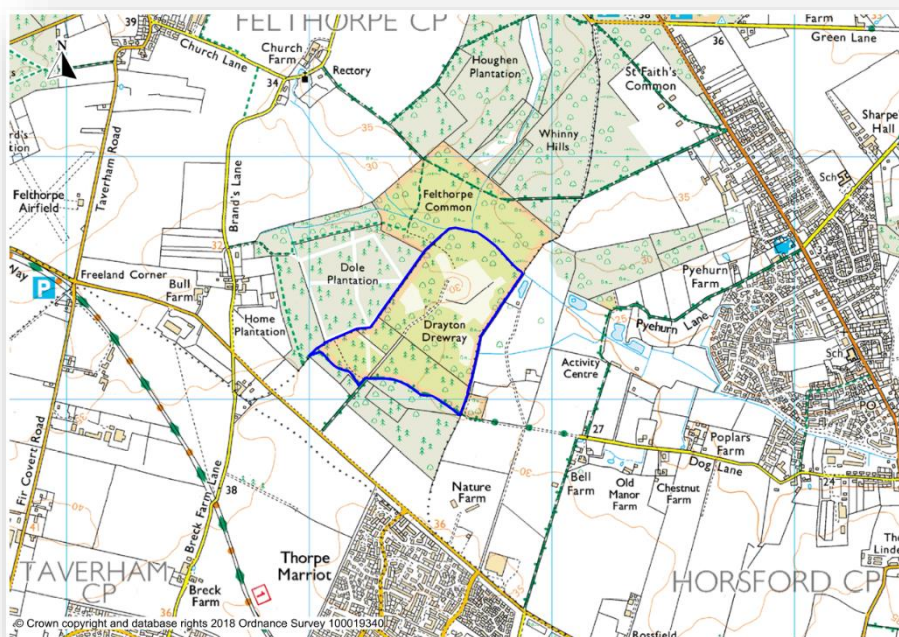

**Parish:** Drayton  
**Area:** 20.5ha  
**Survey date:** Various dates during 2018 and 2019

**Registered Common Number:** CL 328

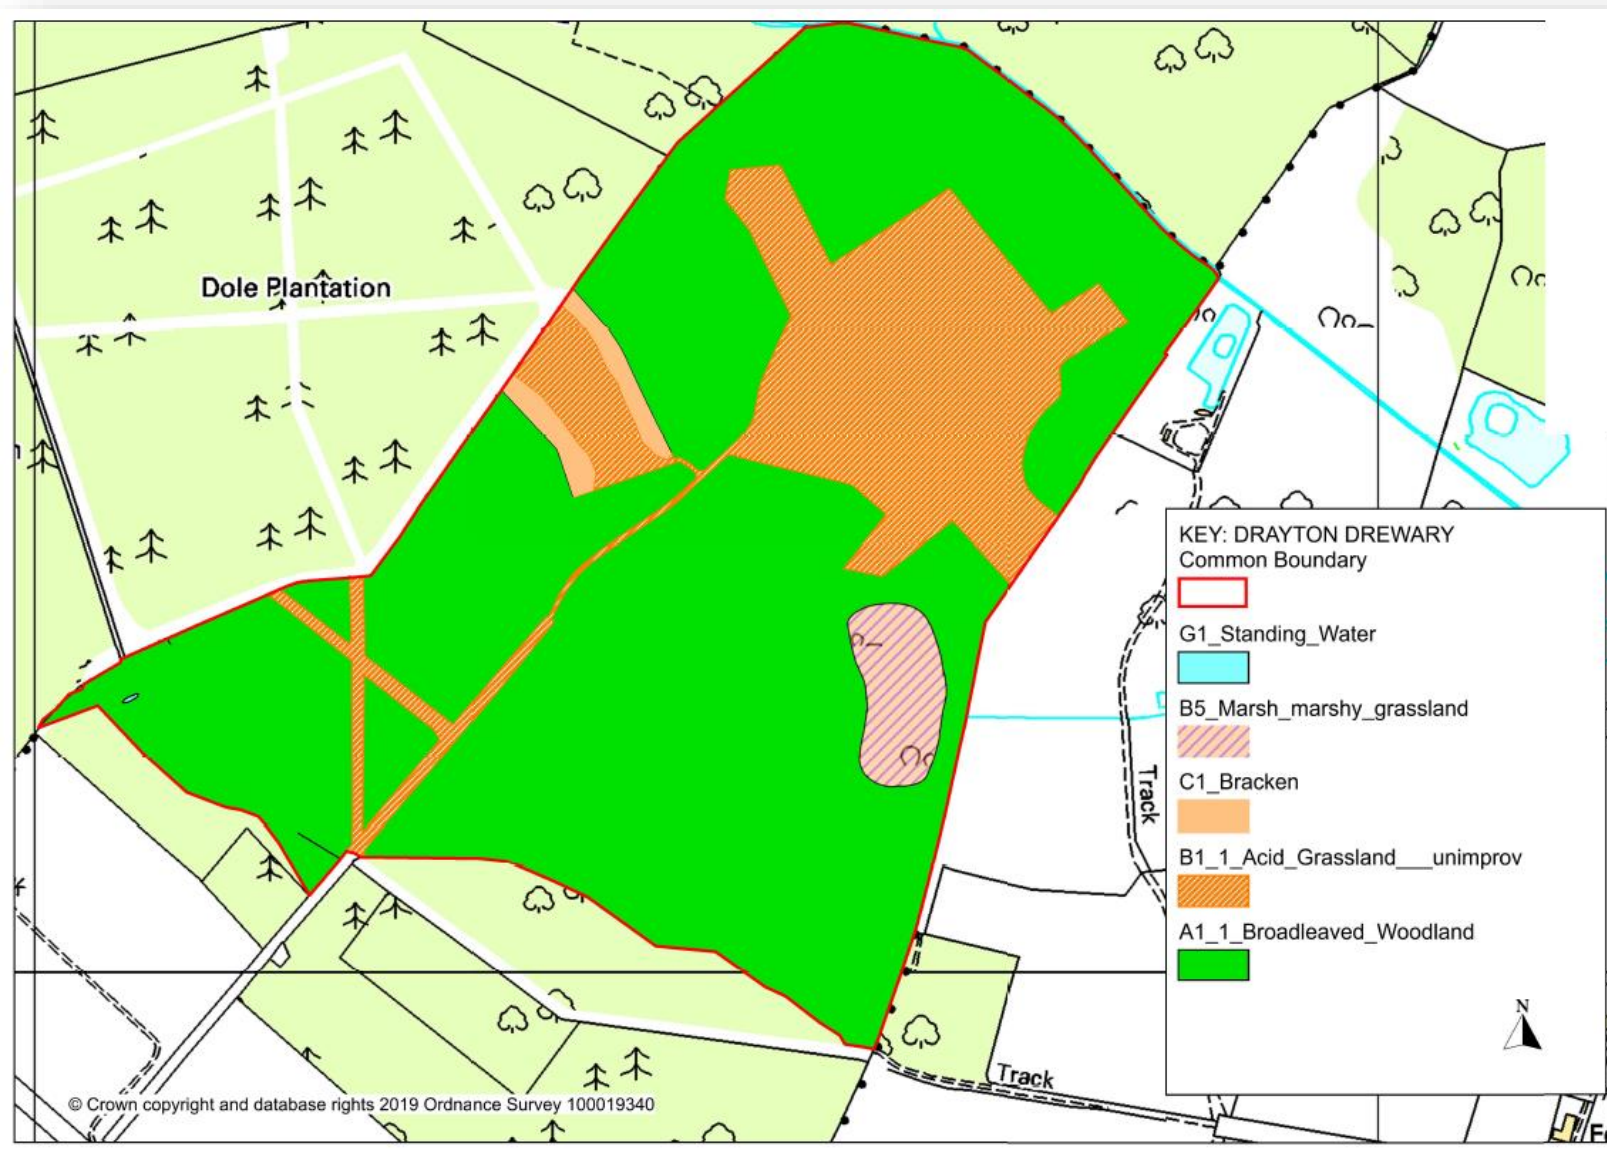

**Map showing the County Wildlife Site Boundary**

**Map showing boundary of common**

Habitat map

### Habitat description:

Species diverse broadleaved woodland, wet in the north, dry in the south. In the north there is area of marshy grassland. An area of acid grassland occurs towards the western edge of the woodland.

The southern part of the common (not included in 2014 survey) becomes increasingly coniferous, with a large stand of *Rhododendron ponticum* in the south-west. A newly created path links the central path to the east of the common with species including ling (*Calluna vulgaris*) and cross-leaved heath (*Erica tetralix*).

### Map showing target note reference points:

### Target Notes:

1. South woodland – mixed woodland with dominant birch (*Betula pedula*), conifer and oak (*Quercus robur*). There is little shrub layer, mostly occasional holly (*Ilex aquifolium*). The eastern side (from the central north-south path) has scattered, small patches of *Rhododendron ponticum* and some stands of young birch. There is frequent broad buckler (*Dryopteris dilatata*) fern in places and bracken (*Pteridium aquilinum*) dominates in some areas.

The newly created cycle path has path-side vegetation including rare cross-leaved heath (*Erica tetralix*), heather (*Calluna vulgaris*) and rushes (*Juncus* spp.). There is

an area by the new path with deeply rutted vehicle tracks which had lying water in places, supporting floating sweet grass (*Glyceria fluitans*) and rushes.

The woodland to the north of the new path supports young oak and birch with bracken, male fern (*Dryopteris filix-mas*), broad buckler and occasional wood sorrel (*Oxalis acetosella*), enchanter's nightshade (*Circaea lutetiana*), wood avens (*Geum urbanum*) and rushes.

The western side of the southern woodland is similar but with large, scattered stands of Rhododendron. Variegated archangel (*Lamium galeobdolon* subsp. *Argentatum*) occurs by the west edge of the central path - at present it seems limited to this area of the southern woodland.

2. Acid grassland with a belt of bracken in front of mixed woodland - Sheep's sorrel (*Rumex acetosella*) is occasional, as is sweet vernal grass (*Anthoxanthum odoratum*), birdsfoot trefoil (*Lotus corniculatus*), germander speedwell (*Veronica chamaedrys*), red fescue (*Festuca rubra*), Yorkshire fog (*Holcus lanatus*), dovesfoot cranesbill (*Geranium molle*), lesser stitchwort (*Stellaria graminea*) and nettle (*Urtica dioica*). The grassland here is fenced, and was cut and cleared of bracken in 2018-19.
3. Large open areas of neutral-acid grassland mosaic bounded on all sides by woodland - There is a scrubby stand of gorse (*Ulex europaeus*) in the south, and a belt of goat willow (*Salix caprea*) and blackthorn (*Prunus spinosa*) scrub in the east with elder (*Sambucus nigra*) and dog rose (*Rosa canina* agg.). Bracken has been cleared here.

The grassland is tussocky in places to the north east, but otherwise has a quite fine sward. The grassland is moderately species rich with frequent meadow buttercup (*Ranunculus acris*), lesser stitchwort, germander speedwell and common vetch (*Vicia sativa*). Occasional species include sweet vernal grass, cocksfoot (*Dactylis glomerata*), creeping thistle (*Cirsium arvense*), field woodrush (*Luzula campestris*) and black medick (*Medicago lupulina*). Southern marsh orchid (*Dactylorhiza praetermissa*) is rare, occurring to the east of the grassland.

The sward near the gorse island is low and fine, supporting sheep's sorrel, lesser stitchwort, field woodrush, selfheal (*Prunella vulgaris*), cat's ear (*Hypochaeris radicata*), sweet vernal grass and common mouse ear (*Cerastium fontanum*). A damp-wet flush occurs in the south, adjoining the marshy grassland beyond the trees to the south.

4. Wet, alder (*Alnus glutinosa*) dominated woodland with patches of dominant remote sedge (*Carex remota*), also occasional lesser pond sedge (*Carex acutiformis*), rushes, sanicle (*Sanicula europaea*), bugle (*Ajuga reptans*), redcurrant (*Ribes rubrum*), guelder rose (*Viburnum opulus*) and honeysuckle (*Lonicera periclymenum*) threading through the ground flora and shrub layer. Marsh marigold (*Caltha palustris*) is rare. There are good amounts of both standing and fallen deadwood. The north boundary of the common is a wet ditch.
5. Marshy grassland supporting rushes and sedges *Carex* ssp., also marsh valerian (*Valeriana dioica*), watermint (*Mentha aquatic*), cuckooflower (*Cardamine pratensis*), common sorrel (*Rumex acetosa*), lesser spearwort (*Ranunculus flammula*), horsetail (*Equisetum* sp.), marsh pennywort (*Hydrocotyle vulgaris*), ragged robin (*Silene flos-culi*) and meadowsweet (*Filipendula ulmaria*). A belt of goat willow and birch leads back into the coniferous part of the woodland to the south.

**Other notable species:**

*Include non-plant species eg turtle dove/barn owl/dingy skipper*

Please see fauna records below.

**Adjacent habitats/potential buffer zones & linkage to other sites:**

CWS 1352 lies to the immediate north. Agricultural land to the east and west. The NDR lies to the immediate south.

**Is the site in positive conservation management? Yes/no/partly/non-intervention.  
(Please give details if necessary).**

Yes – in the northern areas of the site - with grassland cut; scrub is cut back. New paths were being created in summer 2018.

**Brief management proposals:**

*Eg should the site be grazed/cut & raked off/coppiced/thinned etc*

Helen Baczkowska (NWT Conservation Officer) has given advice on site management.

**Has a site condition assessment form been completed for this site?** Yes

**If not how would you rate the overall site condition?**

## PLANT LIST

**Name of site:** Drayton Drewary

**Date of surveys:** 08/06/2018, 03/07/2018, 18/08/2018, 26/09/2018, 18/10/2018, 23/01/2019, 05/02/2019, 20/03/2019, 08/04/2019, 30/04/2019, 02/06/2019, 05/06/2019, 07/08/2019, 29/08/2019

**Surveyors:** Janet Haime, Debbie Spooner, Nick Trull, Sue Fage, Ginny Taverner  
Donna Fisher, Steve Fage, Sharon Brett  
(Lucy Seely, Gemma Walker, Caroline Spink from NWT)

## Plant List

| <i>Species Name</i>   |  |  |
|-----------------------|--|--|
| Common Name           | Scientific Name                          | Comment  |
| Agrimony, Fragrant    | <i>Agrimonia procera</i>                 | By boundary bank in north-western corner   |
| Alder                 | <i>Alnus glutinosa</i>                   | Some appear coppiced   |
| Archangel, variegated | <i>Lamiaeum galeobdolon x argentatum</i> | Variegated variety on the side of the southern, central track. Likely garden escape. |
| Ash                   | <i>Fraxinus excelsior</i>                |  |
| Aspen                 | <i>Populus tremula</i>                   |  |
| Balsam, Himalayan     | <i>Impatiens glandulifera</i>            | On the side of the southern, central track.  |
| Bartsia, Red          | <i>Odontites vernus</i>                  |  |
| Bedstraw, Fen         | <i>Galium uliginosum</i>                 |  |
| Bedstraw, Heath       | <i>Galium saxatile</i>                   |  |
| Bedstraw, Marsh       | <i>Galium palustre</i>                   |  |
| Beech                 | <i>Fagus sylvatica</i>                   |  |
| Bindweed, Large       | <i>Calystegia silvatica</i>              |  |
| Birch, Downy          | <i>Betula pubescens</i>                  |  |
| Birch, Silver         | <i>Betula pendula</i>                    |  |
| Bird Cherry           | <i>Prunus padus</i>                      |  |
| Bittercress, Wavy     | <i>Cardamine flexuosa</i>                |  |
| Bittersweet           | <i>Solanum dulcamara</i>                 |  |
| Blackcurrant          | <i>Ribes nigrum</i>                      |  |
| Blackthorn            | <i>Prunus spinosa</i>                    |  |
| Bracken               | <i>Pteridium aquilinum</i>               |  |
| Bramble sp.           | <i>Rubus fruticosus</i> agg.             |  |
| Brooklime             | <i>Veronica beccabunga</i>               |  |
| Broom                 | <i>Cytisus scoparius</i>                 |  |
| Bryony, Black         | <i>Tamus communis</i>                    |  |
| Buckler Fern, Broad   | <i>Dryoptera dilata</i>                  |  |
| Buckler Fern, Narrow  | <i>Dryopteris carthusiana</i>            |  |
| Bugle                 | <i>Ajuga reptans</i>                     |  |
| Burnett, Salad        | <i>Poterium sanguisorba</i>              | In carpark   |

| Common Name                | Scientific Name                 | Comment   |
|----------------------------|---------------------------------|---|
| Buttercup, Bulbous         | <i>Ranunculus bulbosus</i>      | On path in smaller grass area   |
| Buttercup, Creeping        | <i>Ranunculus repens</i>        |   |
| Buttercup, Meadow          | <i>Ranunculus acris</i>         |   |
| Campion, Red               | <i>Silene dioica</i>            |   |
| Catsear                    | <i>Hypochaeris radicata</i>     | In smaller grass area   |
| Centaury, Common           | <i>Centaurium erythraea</i>     |   |
| Chervil, Rough             | <i>Chaerophyllum temulum</i>    |   |
| Chestnut, Sweet            | <i>Castanea sativa</i>          |   |
| Chickweed, Common          | <i>Stellaria media</i>          |   |
| Cinquefoil, Creeping       | <i>Potentilla reptans</i>       |   |
| Cleavers (Goose Grass)     | <i>Galium aparine</i>           |   |
| Climbing Corydalis         | <i>Ceratocarpus claviculata</i> |   |
| Clover, Red                | <i>Trifolium pratense</i>       |   |
| Clover, White              | <i>Trifolium repens</i>         |   |
| Coltsfoot                  | <i>Tussilago farfara</i>        |   |
| Cranesbill, Cut-leaved     | <i>Geranium dissectum</i>       | On the side of the southern, central track.   |
| Cranesbill, Dove's foot    | <i>Geranium molle</i>           |   |
| Cranesbill, Shining        | <i>Geranium lucidum</i>         | On the side of the southern, central track.   |
| Cranesbill, Small-flowered | <i>Geranium pusillum</i>        | In smaller grass area   |
| Cuckooflower               | <i>Cardamine pratensis</i>      |   |
| Cudweed, Marsh             | <i>Gnaphalium uliginosum</i>    |   |
| Daffodil                   | <i>Narcissus sp.</i>            | Among central line of trees in largest grass area and in clumps in and around other grass areas. Garden varieties, likely to have been planted. |
| Daisy                      | <i>Bellis perennis</i>          |   |
| Dandelion                  | <i>Taraxacum agg.</i>           |   |
| Dead-nettle, Red           | <i>Lamium purpureum</i>         |   |
| Deadnettle, White          | <i>Lamium album</i>             |   |
| Dock, Curled               | <i>Rumex crispus</i>            |   |
| Dock, Water                | <i>Rumex hydrolapathum</i>      |   |
| Dog's Mercury              | <i>Mercurialis perennis</i>     |   |
| Elder                      | <i>Sambucus nigra</i>           |   |
| Enchanter's Nightshade     | <i>Circaea lutetiana</i>        |   |
| Fat Hen                    | <i>Chenopodium album</i>        |   |
| Fern, Broad Buckler        | <i>Dryopteris dilatata</i>      |   |
| Fern, Hard                 | <i>Blechnum spicant</i>         |   |
| Fern, Hart's Tongue        | <i>Asplenium scolopendrium</i>  |   |
| Fern, Lady                 | <i>Athyrium filix-femina</i>    |   |
| Fern, Male                 | <i>Dryopteris filix-mas</i>     |   |
| Fern, Soft Shield          | <i>Polystichum setiferum</i>    |   |
| Fiddleneck, Common         | <i>Amsinchia micrantha</i>      | In carpark  |

| Common Name                | Scientific Name                 | Comment   |
|----------------------------|---------------------------------|---|
| Fleabane, Common           | <i>Pulicaria dysenterica</i>    |   |
| Forget-Me-Not, Field       | <i>Myosotis arvensis</i>        |   |
| Forget-Me-Not, Tufted      | <i>Myosotis laxa</i>            |   |
| Foxglove                   | <i>Digitalis purpurea</i>       |   |

### Fungi list

| Date Seen  | Species Name                 | Comments   |
|------------|------------------------------|--|
| 26/09/2018 | False Chanterelle            | Under pine on south eastern boundary   |
| 26/09/2018 | Birch Polypore               |  |
| 26/09/2018 | Common Earthball             |  |
| 26/09/2018 | Fly Agaric                   | In most westerly point of site   |
| 26/09/2018 | Fairy Ring Champignon        | Grassland area on western boundary of site   |
| 26/09/2018 | Tar Spot                     | On many sycamore trees throughout site   |
| 18/10/2018 | Butter Waxcap                | In acid grassland area   |
| 18/10/2018 | Turkeytail                   | In northern damp area on dead wood   |
| 18/10/2018 | Yellow Spindles (sp.)        | Growing in grass areas in south eastern corner   |
| 18/10/2018 | Candlesnuff Fungus           | Growing on fallen branches in south eastern corner   |
| 18/10/2018 | Jelly Fungus (Yellow/Orange) | Individually 1-3mm diameter. Growing on fallen branches in south eastern corner  |
| 18/10/2018 | <i>Russula xerampelina</i>   | Near area of fen grassland in northern corner of site  |
| 18/10/2018 | Fly Agaric                   | On western path just south of grassland area   |
| 23/01/2019 | Birch Polypore               | On fallen limbs in boggy, northernmost area of site  |
| 23/01/2019 | Turkeytail                   | On fallen limbs in boggy, northernmost area of site  |
| 20/03/2019 | Unknown - photo taken        | White, almost circular mound - approx 6cm diameter - resembling a fresh cauliflower. Growing on a fallen, dead limb of birch in northern boggy area. |
| 08/04/2019 | Birch Polypore               | New and old on same tree - photo taken   |
| 29/08/2019 | <i>Bulbitius vitellinus</i>  |  |
