

# INTERESTED IN CONSERVATION ?

Can you spare a couple of hours or so and help maintain the important and beautiful Beeston Common, near Sheringham? BCMG have organised some conservation tasks this winter to help maintain the open character around the Common with the object of re-establishing a regular group if there is sufficient interest. Through the winter overhanging branches and scrub will be cut back to keep the paths open and saplings removed to keep an open canopy in some of the wooded areas. The work will take place on Wednesday and Sunday mornings between 9.30 and 12.30 unless very wet.

Please contact the Hon. Warden for further details if interested:
